“ I will miss you more than anything Grandma. I wish that the family would have kept you closer to us and not moved you down to Kingsville. The girls and I miss you so much and I know you never got to meet Russell, your youngest great grandson but he will know who you were to me and what you meant to me. I will forever keep your pig figurines around my home for all to see and will always remember how you were there for me as a child when I was in the system. From my Debbie's dance studio recital when I was 6 to my graduation from high school, you were always there for me and I will always miss you. I began decorating cakes and even still dabble with the crocheting, even though I'm never going to be as good as you were. I need you to rest easy now grandma! Your memory is back and you can look down on us in the sky and send reminders to us every once in awhile to make sure we remember that you are watching and looking out for us. I wish I could have visited more and been with you before you passed and it kills me everyday that I think about how I was on hold waiting to speak with you when you took your last breathe. I died a little inside the day you left this plane. I love you forever and I will tell those stories to keep your memory alive! ****Butterfly kisses**** and ****Eskimo kisses**** You will be missed!
